# LEVEL 2 APPLICATION FORM

## CHECKLIST and CORE REQUIREMENTS FOR LEVEL 2 APPLICANTS

### Before submitting your application please ensure you:

- Complete all sections of the application form
- Complete the information for employees/subcontractors who will be seeking registration under your accreditation (subcontractor additional requirements below)
- Provide evidence that employees/subcontractors satisfy accreditation criteria for Level 2 requested class
- Provide evidence of Public and Products Liability insurance (minimum cover of \$10M)
- Ensure “**Electricity Distributors of NSW**” are noted as interested parties on the Public and Products Liability insurance policy
- Provide payment of accreditation fee
- Sign the application form
- Sign the undertakings section

#### Level 2 subcontractor additional requirements

- If you are using subcontractors for Class 2A, 2B, 2C, 2D you are required to provide the following with your application:**

A letter from the company each employee works for on letterhead, naming the specific employee and the class to be sub contracted, and signed by the Owner, Director, or HR representative giving permission for that employee to subcontract to you.

*\*Please note for Class 2A, 2B, 2C, 2D the company you are subcontracting from, must be an existing Accredited Service Provider (ASP)*

- If you are using subcontractors for Class 2X you are required to provide the following with your application:**

A letter from the company each employee works for on letterhead, naming the specific employee to be sub contracted and signed by the Owner, Director, or HR representative giving permission for that employee to subcontract to you.

*\*Please note for Class 2X, the company you are subcontracting from does not need to be an existing Accredited Service Provider (ASP).*

2.							
3.							
4.							
5.							
6.							
7.							
8.							
9.							
10.							

**#You must provide Photo Identification and evidence of how each person satisfies the qualifications/training requirements (e.g. copies of certificates with record of results) – See Qualification and training requirements on page 6**

**\* For subcontractors please see page 2 for additional requirements**

Submit additional copies of this page if required

# LEVEL 2 APPLICATION FORM

Level 2 ASP Qualification and training requirements		
Classes of Contestable Services (type of work)	ASP Scheme Qualification Criterion for Level 2 ASPs <i>Training organisations must be registered with Australian Skills Quality Authority or their state training authority and must have the relevant qualification and unit of competency on their scope of registration to deliver training and/or assessment</i>	
	Core Qualifications	Additional Mandatory Competency Units (refer to Note 2)
<b>Class 2A</b> – Disconnect and reconnect at connection point	<b>Meet</b> requirements for class 2B or 2C <b>OR</b> Currently registered for Disconnect / reconnect (former Level 2 Category 1)	<b>UETTDREL16A</b> - Working safely near live electrical apparatus <b>AND</b> <b>UETTDRRF11A</b> - Testing of connections to low voltage electricity networks
<b>Class 2B</b> – Underground Services	<b>UEE30811</b> – Certificate III in Electro- technology Electrician (or equivalent) <b>OR</b> <b>UET30812</b> – Certificate III in ESI – Power Systems – Distribution Cable Jointing	<b>UETTDNIS55A</b> – Install and maintain low voltage underground services <b>AND</b> <b>UETTDRRF11A</b> - Testing of connections to low voltage electricity networks
<b>Class 2C</b> – Overhead Services	<b>UEE30811</b> – Certificate III in Electro- technology Electrician (or equivalent) <b>OR</b> <b>UET30612</b> – Certificate III in ESI – Power Systems – Distribution Overhead	<b>UETTDNIS56A</b> – Install and maintain low voltage overhead services <b>AND</b> <b>UETTDRRF11A</b> - Testing of connections to low voltage electricity networks
<b>Class 2D</b> – Energising service equipment – including disconnect and reconnect	<b>UEE30811</b> – Certificate III in Electro- technology Electrician (or equivalent)	<b>UETTDREL16A</b> - Working safely near live electrical apparatus <b>AND</b> <b>UEENEEK142A</b> - Apply environmentally and sustainable energy procedures in the energy sector <b>AND in relation to a basic meter installation request received by the distributor prior to 1 December 2017 either</b> (i) <b>UETTDNIS60A</b> – Install and replace power system meters and associated equipment, or, (ii) <b>UEENEEG171A</b> install, setup and commission interval metering <b>AND</b> <b>UETTDRRF11A</b> - Testing of connections to low voltage electricity networks
<p><b>Note 1:</b> Upon verification; those holding an equivalent qualification to:</p> <ul style="list-style-type: none"> <li><b>UET30612</b> and/or <b>UET30812</b> documented in the <b>UET12</b> Training Package and all corresponding units of competency that proceed back to and are inclusive of <b>UTT30101</b> and/or <b>UTT30301</b> documented in the <b>UTT98</b> Training Package will also meet the qualification requirements noted in this Level 2 table; or</li> <li><b>UEE30811</b> documented in the <b>UEE11</b> Training Package and all corresponding units of competency that proceed back to and are inclusive of <b>UTE31199</b> documented in the <b>UTE99</b> Training Package will also meet the qualification requirements noted in this Level 2 table.</li> </ul> <p><b>Note 2:</b> Registered Training Organisations (RTO's) must ensure that any/all prerequisite units of competency (as specified within each of the relevant competency standards) have been achieved prior to awarding any of the units of competency specified within the "Additional Mandatory Competency Units" column of Level 2 table.</p>		

# LEVEL 2 APPLICATION FORM

## CONDITIONS OF ACCREDITATION TO PROVIDE CONTESTABLE SERVICES

### DEFINITIONS

Words used in this accreditation have the same meaning as defined in the *Electricity Supply Act 1995* except where otherwise defined below:

**Act** means the *Electricity Supply Act 1995*

**ASP** means the accredited service provider who has been granted accreditation to carry out contestable services under this grant of accreditation

**Department** means the NSW Department of Planning & Environment,

**Regulation** means the *Electricity Supply (Safety and Network Management) Regulation 2014*

**Scheme Rules** means the latest version of the Scheme Rules made by the Minister for Industry, Resources and Energy on under clause 26 of the Regulation.

**Service and Installation Rules** means the Service and Installation Rules of New South Wales published by the Department on August 2016, as amended or replaced from time to time

### CONDITIONS

1. The ASP may only provide contestable services for which accreditation is held under this accreditation.
2. A person may only carry out work under this accreditation if they are registered under the Scheme Rules.
3. A person who is registered under the Scheme Rules to carry out work under this accreditation must maintain his or her qualification for the duration of the work carried out under this accreditation.
4. Any person carrying out work under this accreditation must provide all contestable services in a safe manner and in accordance with:
  - (a) the Act and the Regulation;
  - (b) the Scheme Rules;
  - (c) the Service and Installation Rules;
  - (d) the relevant local electricity distributor's safety management plan; and
  - (e) the ASP's safety management systems.
5. An ASP is responsible for ensuring that any subcontractor it engages to undertake contestable work on its behalf is accredited for the appropriate class of contestable services.
6. An ASP is responsible for ensuring that its staff or the staff of a subcontractor it engages are appropriately qualified and competent for the contestable services they will undertake and that they are authorised as required by the relevant electricity distributor.
7. The ASP must maintain records of all contestable services provided under this accreditation, including:
  - (a) work carried out on behalf of the ASP and under this accreditation; and
  - (b) details of the person who undertook the work.Such records must be provided to the local electricity distributor on inspection of the works, or to the Department on request.
8. The ASP must maintain their management systems for the duration of this accreditation.
9. The ASP must maintain current policies for all insurances held as at the date of this grant of accreditation for the duration of this accreditation.
10. The ASP, in providing contestable services under this accreditation, must use equipment and systems that ensure the safety of the person undertaking the work and the public.
11. The ASP must comply with any reasonable request of an officer appointed by the Department to conduct an independent audit of the ASP's records, equipment and works to determine whether the ASP has complied with these conditions of accreditation.
12. The ASP must notify the Department when an employee who is registered under the Scheme Rules to provide contestable services under this accreditation ceases to be employed by the ASP.

# LEVEL 2 APPLICATION FORM

## Undertakings & Declaration for Level 2 applicants

The Applicant undertakes (if accredited) to comply with the following conditions:

1. Only contestable work for which accreditation is held will be undertaken. All work will be undertaken in a safe manner and in accordance with all relevant Acts, regulations, this Scheme, the local electricity distributor's safety management system, the customer installation safety plan and the Service & Installation Rules for NSW.
2. Suitable equipment will be used for the construction of contestable services and the equipment will be maintained to ensure safe operation.
3. Records must be maintained on:
  - the qualifications of personnel undertaking contestable services;
  - contestable services completed and by which authorised person; and
  - routine testing undertaken;
4. For a period of three years from the completion of the services. Such records shall be provided to the local electricity distributor on inspection of works, or to the Department of Planning & Environment on request.
5. Procedures must be in place to ensure that authorised personnel undertaking services have access to current local electricity distributor standards.
6. The applicant, and its employees, subcontractors or other agents, will not carry out work on or near the transmission or distribution system of a NSW electricity distributor unless each is authorised under the relevant requirements of the electricity distributor's safety management system to carry out the work and the work is carried out in accordance with the relevant requirements of that plan (see cl. 5 *Electricity Supply (Safety and Network Management) Regulation 2014*).
7. The required insurances must be maintained for the duration of the accreditation period.
8. The Applicant will indemnify the local electricity distributors of NSW against any loss or damage incurred as a result of any defective contestable services undertaken by the Applicant.
9. The Service Provider must ensure that the following tests on all works are carried out before connecting them to supply to ensure safe operation, and, where applicable, compliance with clause 1.9.3 of AS/NZS 3000 (the Wiring Rules).
  - For **Class B** and **C** work: polarity, phase rotation (where applicable), insulation resistance and earthing integrity.
  - For **Class D** work where applicable, to ensure compliance with AS/NZS 3000, testing procedures shall be adopted from the *AS/NZS 3017 Electrical Installations – Testing Guidelines* (a copy must be retained by the Service Provider). Service Providers engaged in this class of work must not energise the installation past the main switch unless they are in possession of a copy of the relevant Certificate of Compliance - Electrical Work (CCEW) or have completed such a document indicating that all tests required have been performed.
10. The Service Provider must carry out all electrical work in accordance with any directions from the local electricity distributor. Fixtures and equipment owned by the local electrical distributor must be left in good order or returned to the distributor within 7 days after being accessed by the Service Provider.
11. The applicant agrees to notify the Scheme of any circumstances that may affect the conditions of the accreditation,
12. The applicant acknowledges as a condition of accreditation that the Scheme may commission an independent audit of records, equipment and works to confirm compliance with the conditions of accreditation.
13. The applicant agrees to the exchange of ASP data between the ASP Scheme and the distributors, including but not limited to ASP name, ASP contact details, registered employees, number of projects, defects and non conformances as necessary for the effective running of the Scheme.
14. This declaration that the management systems are in place is a pre requisite to the application being processed. These management systems must be produced and be made available if requested by the Scheme.

**By checking these boxes,** I declare that as per **Appendix A Table 9** of the Scheme Rules I have the following management systems in place to a high standard relevant to the work practices I am undertaking for the Level and Class that I am applying for:

- |  |   |
|--|---|
| <input type="checkbox"/> Work health and safety management | <input type="checkbox"/> Business management    |
| <input type="checkbox"/> Resource management               | <input type="checkbox"/> Performance management |
